Buzzkill: Huge bee die-off in Oregon parking lot blamed on insecticide spraying

An estimated 25,000 bumblebees were killed in a Target parking lot after landscapers sprayed blooming trees with insecticide. Happy Pollinator Week!

By John Upton

EPA abandons investigation into fracking pollution

A draft 2011 study by EPA blamed frackers for groundwater contamination in Wyoming. But EPA is now dropping the research, to the industry's delight.

By John Upton

Ask Umbra: Which college major will lead to a green job?

A reader's green-minded son can't decide on a degree. Umbra hits the books.

By Ask Umbra

Coal foes suffer setback in fight against exports

The Army Corps of Engineers says it won't review the climate-changing impacts of plans to export coal from Northwest ports, a blow to enviros and many political leaders in the region.
